

# Armenia Communication Base Station solar Power Generation System

## Overview

---

The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. The power generated by solar energy is used by the DC load of the base station computer room, and the insufficient power is.

## Armenia Communication Base Station solar Power Generation System

---

### Armenia mobile base station equipment solar energy

Orange started exploiting the first base station in Armenia, operating exclusively with solar energy, the press office of Orange Armenia mobile telecommunication operator reported on Wednesday.
