

# Assembly 96v solar battery cabinet

## Assembly 96v solar battery cabinet

[Could not load file or assembly or one of its dependencies](#)

I'm having another of these "Could not load file or assembly or one of its dependencies" problems. Additional information: Could not load file or assembly 'Microsoft.Practices.Unity, Version=1.2.0.0,

### How to write if-else in assembly?

How to write the equal condition (in the question) in assembly? Your example has an else statement while mine uses an else if.

[How to use Assembly on windows ? : r/Assembly\\_language](#)

How to use Assembly on windows ? Hello everyone I want to code in Assembly, but I can't find compilers to run the programs. All I can work on is the MASM in Visual Studio, but people

### terminology

The assembly is a piece of code/executable that is in machine executable code. This might be an obj, exe, dll, It is the result of a compile. The assembler is the "compiler" that compiles

[What do the dollar \(\\$\) and percentage \(%\) signs represent in x86](#)

I am trying to understand how the assembly language works for a micro-computer

architecture class, and I keep facing different syntaxes in examples: sub \$48, %esp mov %eax,

### **picking wrong referenced assembly version**

Yep - included a version in the name in our common assembly library to avoid naming issues in source control. Changed the name back and manually updated the references / hint paths

[Module could not be loaded, assembly with same name :](#)

Import-Module: Assembly with same name is already loaded Ive tried uninstalling the modules, removing them (remove-module, uninstall-module) and then installed and imported again
