

Australian Communication Base Station Battery Energy Storage System Protection Regulations

Voltage range

636V-876V

Rated voltage

768V

Cell type

Lithium iron phosphate

Overview

The installation of Battery Energy Storage Systems (BESS) is governed by stringent safety standards as outlined in AS/NZS 5139:2019, specifically in sections 4, 5, and 6. These sections impose explicit restrictions on permissible installation locations to mitigate safety risks.
