Automation

Machine tools were automated with Numerical control (NC) using punched paper tape in the 1950s. This soon evolved into computerized numerical control (CNC). Today extensive automation is practiced in

[Containerized Solar Energy Storage: The Future of Scalable](#)

Discover how containerized solar energy storage systems are revolutionizing industrial and commercial power management while addressing global energy challenges.

[What is Automation? Definition, Types, Example & Future](#)

Tech Automation refers to the use of technology to carry out tasks automatically without requiring human intervention. Understanding automation is important today because it helps make
