Going to change the service battery in my 15 V40cc D2. Anything I need to be ware of or look out for ??

Battery issues

I've had both batteries replaced (with the correct models), done a 100 mile trip, overnight smart battery charge, charging voltage is fine, system messages cleared but I am still getting "low

"Low Battery Charge" HELP

Have the battery checked at dealers - and just using a multimeter on the battery won't show duff cells in the battery. A new battery-cured mine - any decent auto-electric garage could do it.

[Multiple Warning Lights/Error Messages/Battery deterioration](#)

TBH I would look at a replacement battery on the back of that info - but can't you get one from where you bought it? I don't know what a compliance centre is but does the vehicle come with

Battery Recycling for Businesses

Battery Recycling for Businesses Use the chart below to determine how to handle used batteries generated by your business. Batteries that are considered hazardous must be recycled or managed

Table of ZEV-Related Manufacturers
