

Does the solar inverter need to be equipped with a canopy

Overview

It is not mandatory to install residential string inverters inside a room or under a canopy, as they come with IP65 protection enclosures. However, installing a canopy to avoid direct sunlight on the inverters is beneficial.

Does the solar inverter need to be equipped with a canopy

Can an inverter be installed indoors or outdoors?

Only if the inverter has an IP65 or IP66 rating (dust- and water-resistant). Hang in the shade (e.g. under a canopy) to prevent overheating. Avoid placement in warm attics or directly in the sun, as heat can
