

Energy transition georgia

Overview

Since the clean energy plan's passage, 40 new clean energy projects have been announced or moved forward in Georgia, ranking second in the nation, with projects spanning four sectors - solar, batteries, electric vehicles, and other clean technologies.

Energy transition georgia

Supporting Georgia's Clean Energy Future

While it is vital that we accelerate Georgia's transition to cleaner energy, we need to work together to find solutions that don't harm local communities or ecosystems.
