5G COMMUNICATION BASE STATION INVERTER GRID

This paper proposes a distribution network fault emergency power supply recovery strategy based on 5G base station energy storage. This strategy introduces Theil's entropy and modified Gini coef.

Collaborative optimization of distribution network and 5G base stations

In this paper, an operation model of 5G BSs considering its communication load migration and energy storage dynamic backup is first presented, and then a coordinated optimization model of

Coordinated scheduling of 5G base station energy

To enhance the utilization of base station energy storage (BSES), this paper proposes a co-regulation method for distribution network (DN) voltage
