

# Global outdoor energy storage sites

## Overview

---

This is a list of energy storage power plants worldwide, other than pumped hydro storage.

## Global outdoor energy storage sites

---

### Global Risks Report 2025 , World Economic Forum

The Global Risks Report 2025 analyses global risks to support decision-makers in balancing current crises and longer-term priorities.

### Top 10: Energy Storage Projects , Energy Magazine

From the UK to the UEA and USA to Australia, Energy Digital Magazine runs through 10 of the most impressive energy storage projects

### DOE Global Energy Storage Database

The DOE Global Energy Storage Database provides research-grade information on grid-connected energy storage projects and relevant state and federal policies. All data can be exported to Excel or

### [ASEAN will drive global growth. Here's how to unleash it](#)

By 2030, ASEAN's digital economy is expected to more than double to \$560 billion. But obstacles in the region remain, such as funding for small businesses.

### [Why we need innovative funding models for global health](#)

Global health gains are at risk. New funding models, regional systems and delivery innovation

are vital to build resilient, equitable healthcare worldwide.

### [Global Energy Storage Sites: Where the World's Giant Power Banks Live](#)

That's exactly what's happening as nations race to build global energy storage sites - the unsung heroes of our renewable energy transition. Let's unpack this geographical treasure hunt through

### [Global energy in 2026: Growth, resilience and competition](#)

For the global energy economy, 2026 is shaping up to be a high-stakes execution test shaped around three themes: growth, resilience and competition.

### [In charts: 7 global shifts defining 2025 so far, World Economic Forum](#)

2025 has been marked by significant global shifts, including increased geopolitical instability, the accelerating impact of AI and a changing labour market.

### [Global Risks Report 2026: Geopolitical and Economic Risks Rise in](#)

Geoeconomic confrontation, interstate conflict and extreme weather emerge as top risks for the year, says World Economic Forum Global Risks Report 2026.

### **Energy Storage Reports and Data**

The following resources provide information on a broad range of storage technologies.

### [Four global risk trends likely to shape the planet through 2030](#)

The path to 2030 is paved with economic, political, technological, and societal challenges. Here are the most important global risks identified by NYU research.

### [Global Cybersecurity Outlook 2026 , World Economic Forum](#)

The Global Cybersecurity Outlook 2026, written in collaboration with Accenture, examines the cybersecurity trends that will affect economies and societies in the year to come. It explores how

### **Global Risks Report 2026**

The Global Risks Report 2026, the 21st edition of this annual report, marks the second half of a turbulent decade. The report analyses global risks through three timeframes to support

### [Renewable Energy Systems and Infrastructure , Energy Storage](#)

By the end of 2023, 43 jurisdictions had in place policies for energy storage, including regulatory policies, targets, and fiscal and financial incentives. China more than tripled its investments in battery

### [How supply chains need to adapt to a shifting global landscape](#)

Global supply chains face rising geopolitical fragmentation and economic divergence, driving four plausible outlooks, from multilateral

cooperation to full degradation.

### **Global energy storage**

To support the global transition to clean electricity, funding for the development of energy storage projects is required. Pumped hydro, batteries,
