HomeGrid Website (C) 2025 HomeGrid. all rights reserved HomeGrid Website

HomeGrid's energy storage systems are comprised of Tier 1 prismatic lithium iron phosphate cells, built to withstand the test of time, and are capable of whole home microgrids. We take pride in our support

HomeGrid

Product Sales Training Explore new opportunities with the HomeGrid product line. This course is perfect for distributors and other industry professionals looking to expand their knowledge and begin selling

Grid-Tied Solar Kits for Sale , GoGreenSolar

Shop grid-tied solar systems from GoGreenSolar. Our grid tie solar kits are the easiest and most cost-effective way to build your own home solar system.

Compact Series

Compact Series With the highest output for its size, the Compact Series battery can handle a lot. From small off-grid cabins, to TOU (time-of-use) offset, to an average residence, the HomeGrid Compact

HomeGrid

Just as a water bucket allows you to be prepared for various needs, a battery in a solar system

ensures that you are ready for these energy uncertainties. By storing excess solar energy, the battery acts as

HomeGrid

HomeGrid Website Our battery sizing tool is meant to provide a general guideline for home-battery sizing based on a single month of electricity usage. We recommend using the month out of the last

Stack'd Series

Stack'd Series With the highest output and capacity range available, the Stack'd Series battery is the right solution for residential and small commercial storage projects. From small off-grid cabins, to
