Horizontal support design for photovoltaic modules

Paste as a link into a Word document

Shrinking in the horizontal direction only needs a relatively small amount of shrinkage. I could also play with font sizes and column spacing to make it fit. But the table as it appears in Excel

KVN1300-30

The 30° triangular support is specifically designed for the installation of photovoltaic modules in a horizontal position on flat roofs. This stand, inclined at 30 degrees, is optimised to maximise solar
