

House solar power installation

House solar power installation

Two story house

The house is fairly well insulated with good windows. It runs fairly stable around 60 on second floor. I run first floor at around 65. this is with temps in the teens at night and twenties

Quadrafire CB1200 free standing

We installed this stove in 2000, and have had virtually no problems until last year, and now this fall. During shut down, the blower shuts off as expected, and then the burner/exhaust blower

2009 House with Fireplace Insert

Our house was built in 2009 and it has a beautiful fireplace with an insert. We didn't do too many fires last winter (maybe 1) but this year are wanting to use it more.

[My house is "concrete slab" foundation \(no basement\). Am I losing](#)

I have no basement in my house - sits on a concrete slab. I have tile/hardwood/pergo floors and yes they are cold in the winter. We've got some carpet and rugs covering about 50% of the

[Quadrafire Castile \(2001\) model smoke in house after Exhaust pipe](#)

Ok first post but I have been a lurker here for the past year and found many of the post very helpful. I bought a house last fall with a

Quadrafire Castile. I was having a problem with the

[heating entire house from basement , Hearth Forums Home](#)

we are looking at buying a house that has a stone fireplace in the living room and a place in the basement to connect a woodstove, the house is 1456 sq ft on one floor and the basement is

How to route chimney in a cape-cod style house

Hi all, I'm new to the forum, but I have heated with wood since I was little. We now have a house that doesn't have a chimney, and we bought an Englander (2200 sq ft model) wood stove from

[Complete Guide To Fully Solar Powered Houses \(2025\) , Costs](#)

DESIGNING A NEW HOUSE FOR WOOD HEATING

I built a boiler building away from the house insurance on it is \$16 a year. With new construction I would include hydronic tubes in the slab best heating ever. The boiler was expensive

100# Propane Tank to House

The 500# tank is probably connected with a copper line with a fitting on the end to mate to the tank's nozzle. To use the 100# tank first compare the nozzle on it to the 500# tank and see if they

[Creosote running down outside of pipe, inside of house](#)

The past few days, creosote is running down the outside of the pipe that is inside the house, between the ceiling and the stove. The exterior pipe looks fine. Also, this fall we had resealed
