

How do photovoltaic panels generate DC current

How do photovoltaic panels generate DC current

Exercise: How much do I need every day?

You can do strength training by using weight machines or weights, your own body weight, heavy bags or resistance bands. You also can use resistance paddles in the water or do activities

[Acute sinusitis: Do over-the-counter treatments help?](#)

Medicine you can get without a prescription may give some relief from acute sinusitis symptoms.

[Automated external defibrillators: Do you need an AED?](#)

An automated external defibrillator (AED) is a portable device that can be used to treat a person whose heart has suddenly stopped working. This condition is called sudden cardiac arrest.

Cardiopulmonary resuscitation (CPR): First aid

Cardiopulmonary resuscitation (CPR) is an emergency treatment that's done when someone's breathing or heartbeat has stopped. For example, when someone has sudden cardiac

Statin side effects: Weigh the benefits and risks

The body needs cholesterol. But having too much

How do solar panels work? Solar power explained

At a high level, solar panels are made up of solar cells, which

cholesterol in the blood raises the risk of heart attacks and strokes. Statins block an enzyme the liver needs to make cholesterol. This

Triglycerides: Why do they matter?

Why do high triglycerides matter? High triglycerides may contribute to hardening of the arteries or thickening of the artery walls, called arteriosclerosis. This condition increases the risk of

How well do face masks protect against COVID-19?

Face masks can help slow the spread of coronavirus disease 2019 (COVID-19). Learn about mask types, which masks to use and how to use them.

Arthritis pain: Do's and don'ts

Arthritis is a leading cause of pain and limited mobility worldwide. There's plenty of advice on managing arthritis and similar conditions with exercise, medicines and stress management. But

[Why Solar Panels Produce Direct Current \(DC\) Electricity](#)

Solar panels generate electricity through the photovoltaic effect. When sunlight hits the solar cells within the panel, it excites electrons, causing

[Osteopathic medicine: What kind of doctor is a D.O.?](#)

You know what M.D. means, but what does D.O. mean? What's different and what's alike between these two kinds of health care providers?

Do Solar Panels Generate AC or DC Current?

When sunlight hits the solar cells in a panel, it causes electrons to be knocked loose from their atoms. The solar panels capture these free electrons and direct them into an electric current.

Photovoltaic Cells: Why They Produce DC Power

Photovoltaic cells inherently produce DC electricity due to the photovoltaic effect. Learn why solar generates DC, how conversion to AC works, and where DC is

[Weight training: Do's and don'ts of proper technique](#)

You might learn weight training techniques by watching friends or others in the gym, but sometimes what you see isn't safe. Weight training technique that isn't proper can lead to muscle
