

# How to partition photovoltaic solar panels

## Overview

---

Discover the best ways to layout solar panels for optimal power output. This guide covers panel direction, array spacing & tilt angles, with insights from Grace Solar's 48GW global experience.

### Can't designate partition as recovery partition

Is your disk gpt or mbr? Personally, I don't mess with recovery partitions. I enable the recovery environment without creating a partition for it and it resides in C:\Recovery.
