IP Rating

Choosing between IP66 and IP67 depends on the specific environmental conditions; IP66 is suitable for heavy rain and water jets, whereas IP67 is better for areas prone to flooding,

The Complete Guide To IP Rating

A product with an IP66 rating is fully dust tight and is completely protected against solid objects. It is also protected against powerful water jets projected by a nozzle (12.5mm) from any angle.

IP code

It is defined by the International Electrotechnical

Commission (IEC) under the international standard IEC 60529 which classifies and provides a guideline to the degree of protection provided by
