

Is the dual voltage universal inverter easy to use

Overview

The correct hybrid solar inverter setting for a 6000W off-grid system powering both 120V and 220V loads is to enable dual-voltage output mode, set the AC output voltage to auto-detect or manually select based on your region's standard (110V/120V for North America, 220V/230V).

Is the dual voltage universal inverter easy to use
