[New site design and philosophy for Stack Overflow: Starting February](#)

Ah, but new experts will rise up and embrace the new, friendly Stack Overflow that they have always wanted. And maybe rediscover the same things the bitter, hateful old guard found.

[Unity: Conflict between new InputSystem and old EventSystem](#)

You probably tried to import a new input system package for multiple input devices compatibility. These type of errors are due to conflict between old and new input system packages

When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

[How do I push a new local branch to a remote Git repository and track](#)

How do I: Create a local branch from another branch (via git branch or git checkout -b). Push the local branch to the remote repository (i.e. publish), but make it trackable so that git pull and

How to open link in a new tab in HTML?

Note I previously suggested blank instead of _blank because, if used, it'll open a new tab and then use the same tab if the link is clicked again. However, this is only because, as GolezTrol

Push local Git repository to new remote including all branches and tags

Whether you push all the branches or just some of them, Git will perform the entire operation without creating any new local branches, and without making changes to your working
