Background Are Solar Panels Hazardous Waste? Overview of Hazardous Waste Regulations State Solar Panel End-Of Life Policies Additional Resources Federal solid and hazardous waste regulations (i.e., the RCRA requirements) apply to solar panels when they are discarded. When a solar panel reaches the end of its usable life or is otherwise discarded, it becomes solid waste. Solid waste is regulated federally under RCRA Subtitle D and through state and local government programs. The discarded sol See more on epa.gov/solarpanelrecycling
