

Power consumption of solar inverter in one hour

Power consumption of solar inverter in one hour

Power BI: excluding a visual from a slicer

On the Power BI Desktop menu, select the Format menu under Visual Tools, and then select Edit interactions. You need to have the slicer selected. Only then you see the according Filter

[How to force Power BI service to use Local timezone](#)

Both approaches work OK in Power BI desktop report, However once I published to Power BI service and after several refreshes (initially it was NZ time), the time turn back to UTC time. I don't

How to Read CSV file using Power Automate?

You can retrieve the contents of the CSV file using the Get file content action in Power Automate/Microsoft Flow, and then using the Parse CSV action to transform the file contents into a

[Power Automate - Some SharePoint List Columns Not Appearing in](#)

I'm working on a Power Automate flow that updates items in a SharePoint Online list. However, I'm facing an issue where certain columns (including Person/Group fields) are not

formatDateTime in Power Automate Desktop

How Much Power Does a Solar Inverter Need

To calculate the average electricity consumption, it is around 1.2

[Power Query code to refer to another query \(and how buffering works\)](#)

Is this just part of the building process? Or If I have one query A that loads across the network and 5 follow up queries that refer to query A will power query / excel be reading the across

Extract Value from Array in Power Automate

Extract Value from Array in Power Automate

You are confusing Power Automate with Power Automate Desktop. The link you provide is for Power Automate, so those functions won't work in the PADesktop. There is an action named

power automate

The file should be available in "C:\Program Files (x86)\Power Automate Desktop" s I can see PADnsole.Host.exe in the mentioned folder. Other way of making sure you are checking in

[Running Python scripts in Microsoft Power Automate Cloud](#)

I use Power Automate to collect responses from a Form and send emails based on the responses. The main objective is to automate decision-making using Python to approve or reject the
