[What is the reason or proper usage of "price" and "pricing"?](#)

The wikipedia article on pricing covers several of the factors involved in pricing strategies and setting. Alternately, "pricing" can be a verb meaning to apply or determine a price", as in "I'm using the label

"price on" and "price for"

'A price on' connotes 'a price set/levied on' (probably not the actual words) and is more seller-orientated. 'The price for' is nuanced less towards the involvement of the seller, and more

meaning

Price point means a point on a scale of possible prices at which something might be marketed; its meaning is different from the meaning of price, which is (principally, but not only) the
