

# Solar power generation photovoltaic panels 330

Features and applications:  
Power: 3300W

Dimensions:  
1800x600x2000mm

## Overview

---

330W solar panels are photovoltaic panels that have a power output of 330 watts, measured under standard test conditions (STC). These panels are designed to convert sunlight into electricity using semiconductor materials like silicon.
