

Solar street lights with wind power

Overview

The Solar Wind Hybrid Street Light is engineered for reliability in challenging climates. By pairing solar modules with a wind turbine, the system captures energy on sunny days and continues generating power during windy nights or overcast seasons-so illumination doesn't stop when.

Solar street lights with wind power

SOLAR , Division of Information Technology

Students use SOLAR to register for classes, print schedules, view and pay bills, update personal contact information, view transcripts, and submit student employment timesheets.
