

**The current inverter power is
11 kilowatts**

Overview

In a solar system, the power of the inverter determines the number and type of equipment it can drive.

The current inverter power is 11 kilowatts

11 kW Three Phase Solar Pump Inverter

Three-phase 11 kW solar pump inverter for irrigation system, adapts IP20

[11 kW high-efficiency high-density bidirectional three-/single](#)

The system can handle both three-phase and single-phase AC input delivering the output power of 11 kW and 7.3 kW, respectively. The output voltage is maintained as 800 VDC for both single- and three
