

The following is not solar power generation

Overview

Coal is a fossil fuel and is not considered a renewable source of energy because it takes millions of years to form and is being used up faster than it can be naturally replenished.

The following is not solar power generation

[Correct usage of 'following' before listing some points](#)

The first one would be the only one I'd consider correct. "The following" refers to the thing that comes next - a passage, paragraph, section, etc. - and so would never be pluralised as "followings".
