

# Where to put solar power in my world

## Overview

---

Welcome to our comprehensive Solar Map, your ultimate guide to locating solar farms, solar roofs, solar parking lots, and solar schools across the country.

## Where to put solar power in my world

---

[What is the difference between POST and PUT in HTTP?](#)

PUT is used by FB to update the comment because an existing resource is being updated, and that is what PUT does (updates a resource). PUT happens to be idempotent, in contrast to POST.

### Global Solar Atlas

Start exploring solar potential by clicking on the map. Select sites, draw rectangles or polygons by clicking the respective map controls. Calculate energy production for selected sites. The Global Solar

**HTTP status code for update and delete?**

What status code should I set for UPDATE (PUT) and DELETE (e.g. product successfully updated)?

[Map of Solar Farms, Roofs, Parking Lots , Solar Energy Maps](#)

Whether you're a solar enthusiast, an environmental advocate, or just curious about renewable energy, our interactive map provides detailed information on the growing network of solar installations.

[What is the difference between PUT, POST, and PATCH?](#)

Difference between PUT, POST, GET, DELETE and

### [How do I put my website's logo to be the icon image in browser tabs?](#)

The image next to the page title in the browser tab - how can you link an image here?

PATCH in HTTP Verbs: The most commonly used HTTP verbs POST, GET, PUT, DELETE are similar to CRUD (Create, Read,

### **Where should I put tags in HTML markup?**

When embedding JavaScript in an HTML document, where is the proper place to put the tags and included JavaScript? I seem to recall that you are not supposed to place these in the &lt;

### **Using PUT method in HTML form**

Can I use a PUT method in an HTML form to send data from the form to a server?

### [How do I put an already-running process under nohup?](#)

I have a process that is already running for a long time and don't want to end it. How do I put it under nohup (that is, how do I cause it to continue running even if I close the terminal?)

### **Where do I put my python files in the venv folder?**

I think @tripleee 's answer is enough to answer this question, but I recently has a problem when I put my python files in the myproject folder

because I was making an exe file with it (using

### [Use of PUT vs PATCH methods in REST API real life scenarios](#)

Since PUT requests include the entire entity, if you issue the same request repeatedly, it should always have the same outcome (the data you sent is now the entire data of the entity). Therefore PUT is
